Datar

A unique structure to serve projects with a cross-border strategy

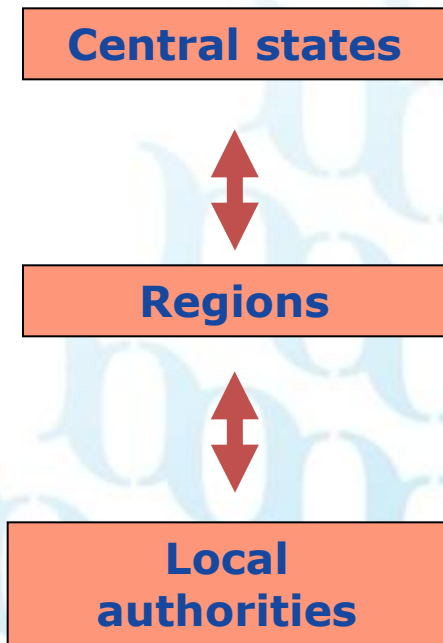

Some interventions of MOT

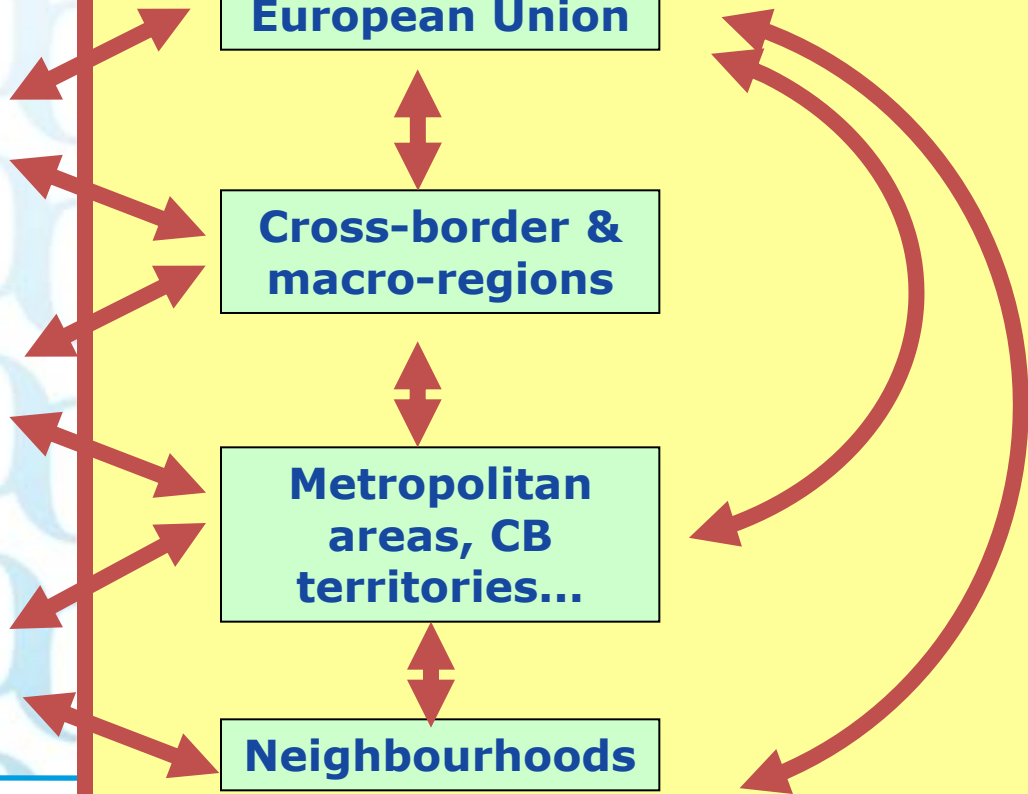

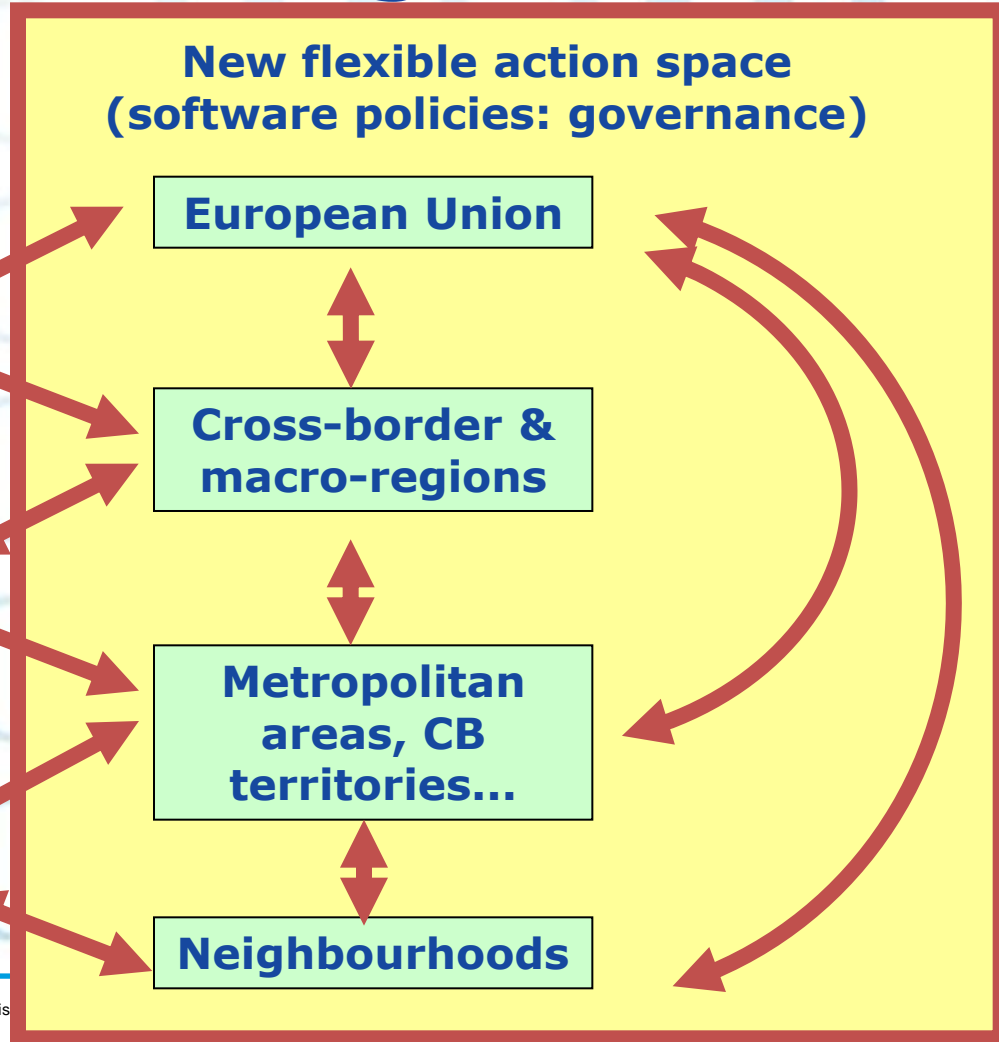

- **European Territorial Cooperation Operational programs 2007-2013:**
 - **Amazonie (for Guyane Region, managing authority)**
 - **Caribbean Region (for Guadeloupe Region, managing authority)**
- **Study of a « Maison Transfrontalière » (cross border information center) France (Guyane)-Brésil (for Chambre of Commerce of Guyane)**

From government to flexible multi-level governance

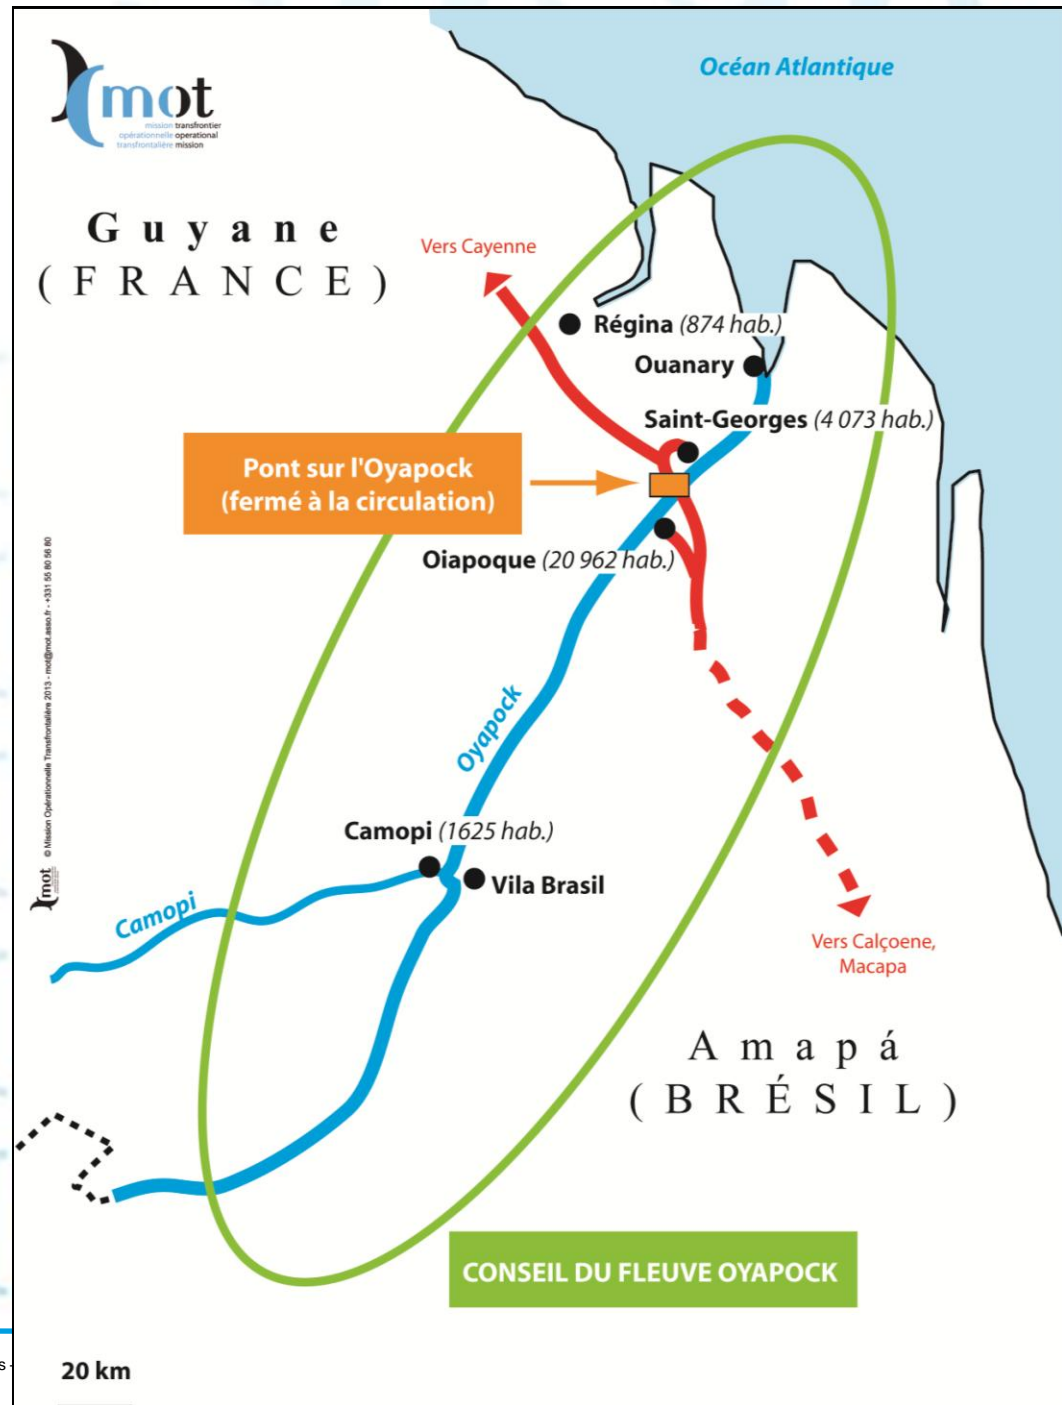

Old fixed action space
(hardware policies:
government)

New flexible action space
(software policies: governance)

example of
cross border
territory:
Oyapock
basin

Key ideas for Smart Cooperation

Improving the strategic dimension of cooperation

- Need of ***strategies for “cross-border regions”***
- States **coordinating data, legislation, financing and institutions, across borders**; with the support of the EU
- All EU funded Operational Programs, and national/regional programs, can contribute to Territorial Cooperation; ETC (Interreg) =catalyst.

What is true for EU “macro-regions” also applies to cross border cooperation.

Territorial Cooperation: flagship instrument of **“territorial cohesion” and integration**: should be at the core of EU and national strategies.

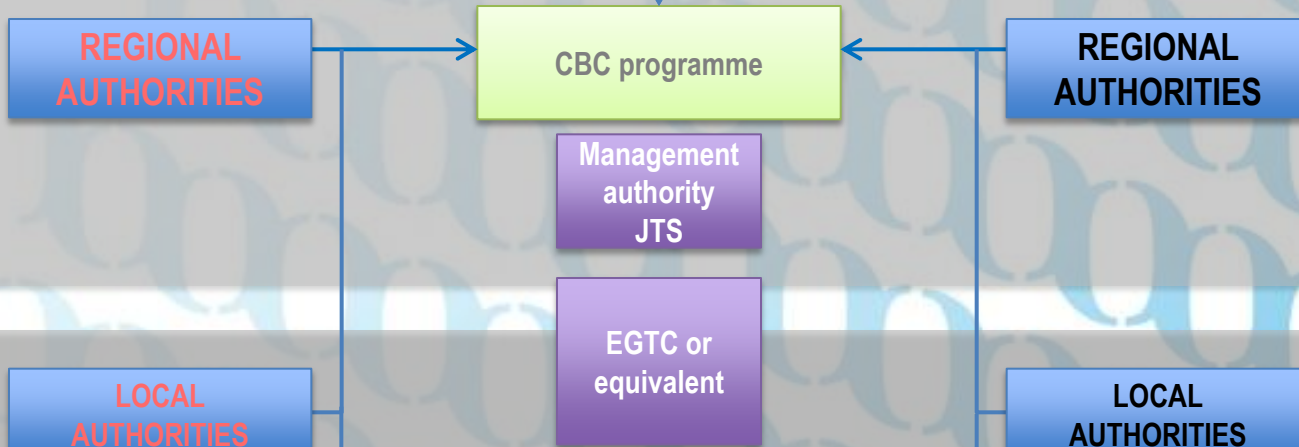

European level

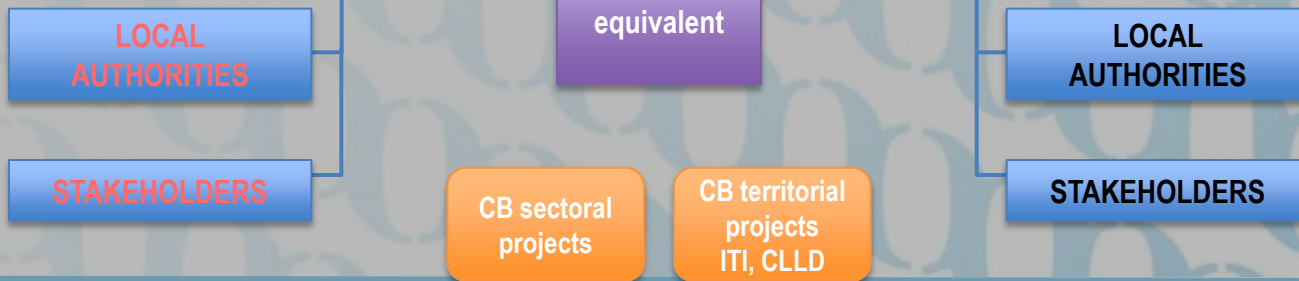

National level

Regional level

Local level

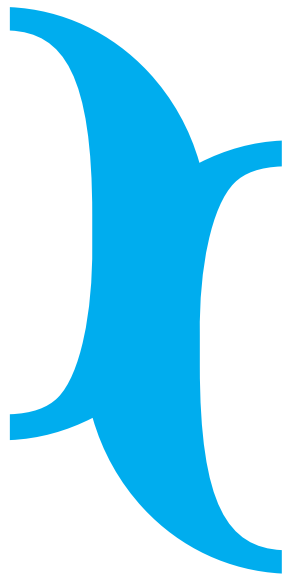

Key ideas for Smart Cooperation

Developing tools for capacity building

Evidence, vision, guidance for thematic/territorial projects:

- at the border level: Euro-institutes !
- at national level; MOT (FR), CESCO (HU), NL ,...: Budapest platform
- at EU level:
 - through EU network programs: Urbact, Interact, ESPON, Interreg C...
 - in interaction with AEBR, TEIN,...
- at global level: BRIT 2014, Nov 4/7 2014, FR/BE border
